

## MYK PLAST 111

### High performance Concrete Admixture

#### Description:

**MYK PLAST 111** is supplied as a brown liquid. It has been specially formulated to give high workability or to produce high quality concrete with better density and reduced permeability.

**Pack Size:** 125 ml, 1,3, 5, 10 & 20 Lit Pack

#### Advantages:

- ❖ Improved workability
- ❖ Increased strength
- ❖ Increased quality
- ❖ Higher cohesion - Risk of segregation and
- ❖ Minimized bleeding and segregation.

#### Usage:

- ❖ Suitable for high performance concrete
- ❖ To produce pumpable concrete
- ❖ To increase workability
- ❖ To improve cohesion
- ❖ Minimizing segregation and give better finish.
- ❖ Chloride free
- ❖ Safe for use in prestressed and reinforced concrete

#### Application:

**MYK PLAST 111** directly can be added to the concrete during the process of mixing @ 100-125ml per 1bag of cement.

**Dosage:** 100-125 ml per 1 bag of cement ( Maximum 150 grams)

Note: - For special cases site trials to be conducted before being used.

#### Health & Safety

**MYK PLAST 111** is non-toxic. Any splashes on the skin should be washed immediately with water. Splashes to the eyes should be washed immediately with water and medical advice should be sought.

**Storage:** Store in cool dry place

**Shelf Life:** 12 months from date of manufacturing.
